PEARS BEFORE COMMITTEE

WASHINGTON, Aug. 18.—(P)—
Criticizing a house-approved tax on radio time sales, Chairman James L. Fly of the communications commission said today that broadcasters believe it would be unfair to tax their advertising while exempting that of newspapers.

Appearing before the senate finance committee for testimony on the \$3,236,700,000 house revenue measure, Fly testified that the proposed tax would yield only \$12,639,000, of which he said \$7, 1815,000 would come from nine chain broadcasting companies.

The proposed tax would be 5 per cent on radio time sales from \$100,000 to \$500,000; 10 per cent on sales from \$500,000; 10 per cent on sales from \$500,000 to \$500,000; 10 per cent on sales above \$1,000,000.

The Communications commission chairman said that radio stations now are "devoting much valuable time to public service programs, such as debates and news programs. I can foresee not decrease in the demands for public service programs. I can foresee not decrease in the demands for public service programs, most of which are a loss to the industry."

I noticed yesterday in The Daily Sun where we are going to try to vote a 15c tax on every piece of property in Navarro County for the purpose of building rural roads. Do you think it is right to mortgage your property by any more taxes? When you are in the most expensive war the United States has ever been in-whether we shoot a gun or not? Do you know that every mile of road you build now will cost you 50% more, and probably double, for what you can build these same roads for after the war is over?

I know I have not been able to pay all my taxes for the last seven or eight year, and I still owe some. You know that if I had the money, I would pay every dollar I owe on any debt that I owe against my property. I'understand we haven't collected 80% of our last year's taxes at the County Court House. You know the Federal Government is going to increase taxes in every direction.

I have never been in politics. I have voted for every bond for streets, schools and roads that has ever been presented in Navarro County. But when I can't pay my taxes, I am through voting for any more. Personally, I think it behooves all voters to vote against this tax issue. We have been listening to our Governor telling us of the deplorable state that we are in all over the state of Texas. I believe that if you will think this over, you will vote against any additional taxes at this time, or any unnecessary expense.

Respectfully, •

E. D. McCarver

BEER THURSDAY AUGUST

By an order of the County Commissioners' Court of Navarro County, based upon the lawful number of qualified voters offering a petition for an election Thursday, August 21st, has been lawfully set for such an election.

Those who believe that the sale of beer should not be legalized in Navarro County are calling on all who believe as they do to go to the polls Thursday, August 21, and vote against legalizing the sale of beer in this county.

Voting on a question of this kind is the democratic way. Beer was voted out of Navarro County in this way, and those who want it kept out urge all who are of like mind with them to go to the polls and vote to keep beer out of Navarro County.

We insist that you remember the date, August 21, and go to the polls and vote, Thursday, August 21st.

No Clues Found Yet

In Lufkin Slaying

LUFKIN, Aug. 16.—(R)—Still without a definite clue to Thursday's mysterious slaying of Mrs. Roy Morehouse, 19, pretty bride of four months, county officers today searched woodlands east of here for the murder weapon.

Two suspects arrested yesterday at Nacogdoches were held in the county jail here pending further investigation.

Mrs. Morehouse, wife of a Lufkin grocery truck driver, was found lying in a pool of blood in the kitchen of her farm home, two miles east of here, when her husband returned from work.

Sherriff H. C. Billingsley said officers were hunting a blunt instrument which crushed the woman's skull.

REPAIRS ON BEATON

First phase of the repairs on

First phase of the repairs on Beaton street were nearing completion Saturday according to information received from J. Mack Jones, city engineer, and the remainder of the work will be pushed as rapidly as possible.

All rails have been removed from the street between Second and Seventh avenues, some sections of the street repaved with brick, and in that portion paved with asphalt the gap left by the removal of the rails has been filled with hot asphalt mixture.

A topping coat will be applied to the street early next week, and crews will then be moved to the area near the intersection of Seventh avenue and Beaton for the final part of the repairs.

The returns are to be canvassed and declared later by the commissioners court. MANAGEMENT LOCAL At Donie Thursday FAIRFIELD, Aug. 16.—(Spl.)— T. E. PLENTY OF COTTON STOCKING DESIGNS ARE NOW AVAILABLE

COLLEGE STATION, Aug. 18.— (P)-More than 150 different cotton stocking designs now are available to the hosiery industry as a result of investigation of the Bureau of Home Economics at the Beltsville, Maryland, research center. Three years ago Congress appropriated funds to the department of agriculture for investigating the use of women's hoslery.

According to Dora R. Barnes, specialist in clothing for the A. and M. College extension service, the designs vary from cotton web mesh for evening wear to plain knits in various weights for sports wear, and for around the house and garden. Several are in production and more will be soon. They are produced on a modern full-fashioned knitting machine and undergo severe laboratory and "field" tests for wearability, washability and appearance.

Surveys made in 1940 showed that 89 per cent of the 16,200 fullfashioned knitting machines in the United States are suitable for knitting cotton as well as silk, while only 47 per cent can handle nylon yarns. Last year, Amorican women bought more than 43,000,000 dozen pairs of full-fashioned stockings. If these had been made from cotton, it is estimated that nearly 300,000 bales of long-staple fibre would have been required.

SPECIAL MEETING AIRCRAFT WARNING SERVICE IS CALLED

Members of the Navarro County Aircraft Warning Service Council have been called for a special meet-ing Wednesday night at 7:30 at the American Legion Hall across from the YMCA, according to informa-tion received Monday from Chair-man H. P. Phillips, Plans will be made at that time for the completion of the organization at the earl

itary authorities. He stated the or-ganization would completely cover the county when recruited to full strength and would supply a setup that could effectively supply neces-sary information to filter and con-trol centers and thence to the U. S. Army Air Corps on movement, numbers and directions of aircraft

Important Notice To All **Election Officials**

Immediately upon the completion of the count of your box, please phone (collect), results to The Corsicana Daily Sun.

The Sun will attempt to give complete county totals, the night of the election, August 21. This will be impossible without your box.

Just tell the operator to connect you with The Daily Sun, Corsicana, (collect).

You should bear in mind that there is a law in effect requiring that your returns be phoned in immediately after the polls are closed and the count completed and imposes a stiff penalty on the election judge if he shall neglect to do this. The law further provides official returns shall be made to the county judge and county clerk within twenty-four hours after the ballots are counted.

This is very important and your co-operation will be greatly appreciated.

We will make our headquarters at The Sun Office the night of the election.

E. D. McCORMICK, County Judge. MABLE WILKINSON, County Clerk.
